2. Micron receives electric utility services from Idaho Power Company (“Idaho Power”) as a Special Contract customer, taking service under Schedule 26 and, in the future under Schedule 28 pending the Commission’s decision in Case No. IPC-E-24-44. Micron is Idaho Power’s single largest customer. In this proceeding, Idaho Power requests an overall rate increase of \$199.1 million. This request represents an overall increase of 13.09% and directly impacts Micron’s rates for service.

3. As a large customer, Micron has an interest in ensuring Idaho Power's electric service is reliable and rates are just and reasonable. Therefore, Micron has a direct and substantial interest in this proceeding.

4. Micron intends to participate herein as a party, and if necessary, to introduce evidence, cross-examine witnesses, call and examine witnesses, and be heard in argument. The nature and quantity of evidence Micron will introduce is dependent upon the nature and effect of other evidence in this proceeding.

5. Granting Micron's Petition to Intervene will not unduly broaden the issues, nor will it prejudice any party to this case.

6. Without the opportunity to intervene, Micron would be without adequate means to participate in this proceeding that will have a material impact on its electric service.

WHEREFORE, Micron Technology, Inc. respectfully requests that the Commission grant its Petition to Intervene in this proceeding and to appear and participate in all matters as may be necessary and appropriate; and, if necessary, to present evidence, call and examine witnesses, present argument and to otherwise fully participate in this proceeding.

Respectfully submitted June 26, 2025.
